Help build a stronger Boothbay region.  
Participate in our

## Community Resilience and Preparedness Survey

Survey closes at the end of July

The towns of Boothbay and Boothbay Harbor are working with the Boothbay Region Climate Action Team, Sunrise Ecologic, and local partners to prepare for challenges such as flooding, severe storms, and power outages. **Please complete our survey about how climate-related events affect you and your community.** Your input will support community-led efforts to understand local risks and help protect our infrastructure, public spaces, and natural areas. Your help is a vital part of our work to make smart, practical decisions for our community's future!
